

Installation Switch Series 8030

- Explosion protection to
 - CENELEC
 - IEC
- For use in
 - Zone 1 and Zone 2
 - Zone 21 and Zone 22
- Degree of protection IP 65
- Robust moulded plastic enclosure
- Large switch lever with phosphorescent inlaid strip

The installation switches Series 8030 are used for lighting installations. For greater clarity when the lighting fails, a phosphorescent strip is inlaid in the switch lever.

The switch position is shown unambiguously by the 90° action. This is especially convenient if lights and switch are in different rooms.
